

De-Flex[®] Modular Matting

The Ultimate Matting Solution for Durability, Comfort, and Safety

De-Flex is the latest technology in modular matting. It's unique rubber formulation makes it heavy duty and naturally ergonomic. The bulleted domes underneath provide additional ergonomics, allowing the mat to bend and flex with every movement. The 18 x 18-in tiles allow you to create any size mat, and the diamond plate traction provides additional safety.

Applications:

Heavy duty industrial areas where custom configurations are needed for coverage.

Key Benefits

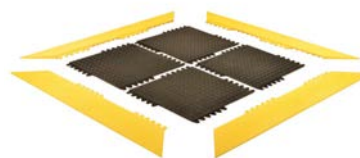

Heavy Duty – Thick 3/4-inch rubber tile holds up to wear and tear, protects the floor, and doesn't expand and contract like vinyl.

Safe – The diamond plate design provides workers with more traction, while still allowing them to pivot. The 18 x 18 in tiles with ramps allow you to create one continuous floor eliminating trip hazards.

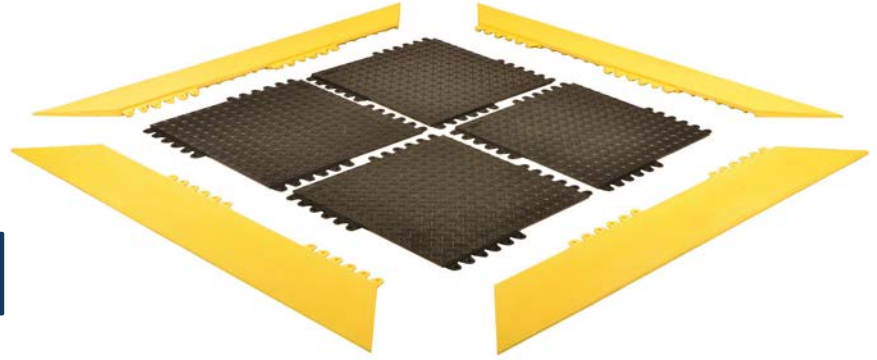

Ergonomic – The rubber tiles naturally provide more ergonomics than vinyl. To add to this, 144 bullets were placed on the back side, creating more bending and flexing when exposed to a load.

Easy to Install – With a universal locking system, there are no male/female ramps or corners, making planning easy. Our 18 x 18 in tiles are easy and light to handle, allowing for more customization around objects and corners.

Modular System

570 - De-Flex®

- Natural rubber compound
- General purpose applications

Model	Description
570S1818BL	570 - De-Flex, single tile
570SC018BL	570 - De-Flex, pack of 8

572 - De-Flex® Niru®

- Nitrile rubber compound
- Resistant to chemicals, cutting fluids, animal fats, oils and greases

Model	Description
572S1818BL	572 - De-Flex Niru, single tile
572SC018BL	572 - De-Flex Niru, pack of 8

573 - De-Flex® ESD

- Natural rubber compound
- Drain static electricity from workers to safeguard against static shocks and protect equipment
- ESD Static Dissipative, measured resistance $10^6 - 10^9 \Omega$
- Optional grounding cord available

Model	Description
573S1818BL	573 - De-Flex ESD, single tile
573SC018BL	573 - De-Flex ESD, pack of 8

571 - De-Flex® Ramps

- Simple assembly with universal connection—no male or female specific connections makes determining material needs easy
- 6-inch wide ramp easily locks together and stay together
- Engineered cut lines on the underside accommodate any connection—outside, inner corner, linear runs
- Yellow ramps comply with OSHA 1910.144 for marking physical hazards

Model	Description
571S0036BL	571 - De-Flex ramp, 6 in W x 36 in L, black
571S0036YL	571 - De-Flex ramp, 6 in W x 36 in L, yellow
