

Installation Guide: Wall / Corner Guards

Components:

- Wall / corner guards
- Plastic anchors (shields) and screws

Installation Instructions:

STEP 1:	Place the corner / wall guard at the desired position.	
STEP 2:	Mark the screw hole positions on the wall.	
STEP 3:	Drill holes, making sure the holes are clean of dust / debris. Insert the plastic anchors (shields) into the holes.	 
STEP 4:	Place the corner / wall guard back in the desired position, insert screws and tighten.	

Maintenance:

- Requires minimal maintenance. Periodically inspect the screws and tighten if necessary.
